Reasons for Allowance

1. The present claims are deemed allowable over the references of record since the references of record fail to disclose or render obvious a Pt or Pd concentration meeting applicants' claimed atomic percent limitation.

While the prior art of record discloses controlling the *overall* Pt or Pd concentration to within applicants' claimed range in a XPt or XPd alloy, the prior art of record fails to teach or render obvious controlling the Pt or Pd concentration *within* the grains to applicants' claimed concentrations. Applicants have demonstrated in the declaration of Mr. Kikitsu (filed August 11, 2003) that the concentration within the grains of a XPt or XPd alloy is not inherently the same as the overall concentration and that it depends on the alloys used and the processing conditions.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin M Bernatz whose telephone number is (703) 308-1737. The examiner can normally be reached on M-F, 9:00 AM - 6:00 PM.
